

Objective & Investment Policy

The primary objective of the Fund is to provide sophisticated investors with an opportunity to seek capital appreciation by offering exposure to a variety of different Cryptocurrencies and Tokens. "Cryptocurrencies and Tokens" means: (a) all digital assets designed to work as a medium of exchange that use cryptography to secure the transactions and regulate the generation of units, (b) all blockchain-based digital tokens, whether issued electronically on a smart contract standard, used as an "access token" that provides benefits to its holders outside of its market value, designed to represent an identifiable asset or otherwise and (c) all other peer-to-peer electronic digital assets represented on a decentralized network. Its goal is to outperform the Bloomberg Galaxy Crypto Index (BGCI). It is an actively managed long-only fund that invests 80% of its assets amongst the top 10 protocols by market cap and up to 20% in smaller protocols and Initial Coin Offerings (ICOs).
